4. Academic Affairs Executive Report - Dr. Bauer reported on academic events and activities that have occurred since the last Board of Trustees meeting:

The Summer Bridge Program has over 100 students registered. The six-week program will begin later this month.

The Mathematics Department received a Bridges to Success Grant for \$150,000 in order to continue development of Math pathways and co-requisite offerings and maintain its leadership role in Math education.

SSU received a Choose Ohio First Grant for \$240,000 to support minority students entering SSU's Gaming Programs.

SSU received state approval to offer a Paramedic Certificate program and will also offer a new Concentration in Actuarial Science, Minor in Microbiology, Minor in Environmental Earth Science, and Minor in Environmental Life Science beginning Fall 2017. The Visual Impairment Program in Teacher Education is progressing and will be available during AY 2017-18.

Beginning in Fall 2017, SSU will eliminate six associate degree programs and one baccalaureate program.

Renovation of the Health Science Building is nearly complete and designs for Phase 2 renovation of the Advanced Technology Building are nearing completion. The Bear Cave, SSU's 24-hour room in the Clark Memorial Library, was a spring semester success and will re-open in fall semester.

Janet Stewart was selected as an OhioLINK OTN System Leader and will be attending the Open Textbook Network Summer Institute in August.

Mr. Williams moved and Mr. Evans seconded a motion to approve Resolution F10-17, Continuing University Spending Authority.

Without discussion, the Board unanimously approved Resolution F10-17.

4. FY17 Budget Status - Elinda Boyles reviewed the general fund operating budget as of May 31, 2017. Revenue is about 92% of budget which is running below pace for this same period last year; also for this same period, expenditures continue to be managed to hold spending a little above 86% of budget. These constraints are resulting in a spending pace of almost 5% less than for the same prior year period. Planned one-time uses of reserves for investment and efficiency projects are greater than budget due primarily to higher than anticipated first year implementation costs for the Oracle project and unbudgeted expenses associated with the interim moves and renovations required to achieve the first phase of the STEMM renovation project.
5. General Fund Reserves Investment Report - The GF reserves investment performance through May shows significant gain of over \$1.4M. The University is taking advantage of the opportunity to preserve valuation gains for anticipated cash needs in 2018.
6. Capital Projects - Updates reveal considerable progress is being made.
 - The phase 2 Health Sciences project is on schedule to be completed by Fall 2017. The nursing department has begun moving to the newly renovated area.
 - Advanced Technology Center programming is complete and construction documents are being generated. This project enables expansion and upgrading of Plastics and digital gaming programs. Construction is anticipated to begin Spring 2018.
 - The Athletic Complex (Rhodes)/Student Recreation project is underway with kick-off and design team meetings held in recent weeks. Construction is anticipated to begin Summer 2018.
 - Townhouse renovation is making progress with all demolition work completed and construction done for student occupancy for fall 2017 semester.
7. SSUDF Update: Building Acquisition - Eric Braun and Elinda Boyles briefed the Committee on steps underway for the Development Foundation's acquisition of 221 Chillicothe Street to house the SSU Innovation Accelerator, including housing the Advancement and External Affairs Division and an upgraded Motion Capture studio. The presence of the University in downtown Portsmouth will invigorate the community and provide new avenues for program enhancement and student experiences.

Mr. Watson reported on behalf of the Executive Committee:

1. Resolution E03-17, 2017/2018 Schedule of Meetings – Shawnee State University Board of Trustees and its Committees

Ms. Higgs-Horwell moved and Ms. Hash seconded a motion to approve Resolution E03-17, 2017/2018 Schedule of Meetings – Shawnee State University Board of Trustees and its Committees

1.0 PURPOSE

The primary purpose of this policy is to advance the academic competence of faculty members while enhancing their contribution to the University as scholars and teachers. Faculty Professional Leave (FPL) proposals typically focus on improvement of scholarship skills and knowledge and/or production of scholarly products. Faculty members may, however, use FPL for a substantial improvement in pedagogical or administrative skills and knowledge that are beneficial to both the faculty and the university. The FPL program is developed in compliance with Ohio Revised Code Section 3345.28. All provisions of O.R.C. 3345.28 will be adhered to in implementing this policy.

2.0 RESTRICTIONS

The FPL program is designed to provide faculty with a significant period of uninterrupted time to invest in their professional development.

- 2.1 Enrichment activities involving little or no investment in new skills and knowledge are not appropriate for the program.
- 2.2 Faculty should restrict any other employment activities during a leave to that which clearly advances or enhances the purpose of the FPL. Such employment must be expressly approved by the Provost
- 2.3 Proposals for faculty improvement designed to address long-term institutional priorities or targeted tuition reimbursement or training for approved program initiatives will not be covered under this policy but may be funded in other ways.
- 2.4 Faculty may not apply for the same educational opportunity under both FPL and another university faculty development program during the same year.

- 2.5 Tuition and fees incurred by the faculty member during FPL will not be reimbursed under this policy. In other words, one may apply for tuition and fee reimbursement or FPL, but not both during the same year.

3.0 ELIGIBILITY

Faculty seeking FPL must have been employed as a tenure-track or tenured faculty member for seven years and be otherwise eligible according to provisions of O.R.C. 3345.28.

- 3.1 Time served at another university, as an adjunct, full-time instructor, visiting or temporary faculty member or while on unpaid leave does not count towards the seven-year requirement.
- 3.2 A faculty member who takes an FPL, regardless of duration, becomes eligible again only after completing another seven years of service at SSU.

4.0 EVALUATION

As described in the underlying procedure, FPL applications will be evaluated and approved by both faculty peers and appropriate academic administrators. The President's final approval is required. Evaluators will place greatest weight on the merits of the proposal with regards to the professional development of the faculty member and the advancement of the mission of the University.

5.0 FACULTY OBLIGATIONS

Faculty who take an FPL must understand and consent to meeting certain obligations.

- 5.1 Faculty who take an FPL are required to return to SSU for a full academic year following completion of the FPL. The underlying procedure will address consequences for failure to return.
- 5.2 Faculty who take an FPL are required to submit a written report of goals and accomplishments within 60 calendar days of the date of their return to service at the university.

6.0 COMPENSATION

Faculty who take a one semester leave will be paid 100% of base salary. Faculty who take a two semester leave will be paid 66% of base salary.

- 6.1 The salary noted above is the total amount that may be earned by the faculty member from SSU general funds. Departments and colleges may not rehire faculty on FPL to teach or engage in other compensated activities.

6.2 The FPL application must describe any non-SSU compensation that the faculty member will receive while on FPL. Faculty members on FPL for one semester are prohibited under Ohio law and this policy from receiving additional compensation from an external source for FPL work.

6.3 A faculty member on a two semester FPL may supplement his/her salary through external sources, such as grants, provided that the activity to be compensated supports the purpose of the FPL and the external support combined with the reduced stipend does not raise the faculty member's compensation above the level of their base salary.

7.0 PROCEDURES

The Board of Trustees authorizes the President to establish procedures to effectively implement this policy.

1.0 This procedure addresses the application and approval of Faculty Professional Leave (FPL) under Board of Trustees Policy 2.04.

2.0 APPLICATION

2.1 Applicants shall submit a proposal, relevant supporting documentation, and an application form (available from the Provost's Office) for review and approval.

2.1.1 The proposal must include a detailed description and goals of the scholarly activity that the faculty member will pursue during leave. The proposal will detail how the activity will advance the faculty member's professional development.

2.1.2 Proposals for FPL for advancement of pedagogical or administrative skills must include a rationale describing the benefits to Shawnee State University, as well as to the faculty member's professional development.

2.2 Employment during FPL is limited to employment that directly advances the goals of the FPL and must be approved in writing by the Provost. If the faculty member will be engaging in any employment activities (for SSU or any other employer, including self-employment and consulting) those activities must be described and justified in the application.

2.2.1 The proposal should include a list of any University employment activities (e.g. committee assignments, student organization advising, campus event planning) that the faculty member would otherwise be involved with so that appropriate substitutes may be found.

2.2.2 The FPL proposal must describe any non-SSU compensation that the faculty member will receive while on FPL. Per Policy 2.04, the faculty member may not receive compensation for FPL work from a non-

University agency or other external source, except as described in the following subsection.

- 2.2.3 A faculty member on a two semester FPL may supplement their salary through limited external sources, such as grants, provided that the activity to be compensated supports the purpose of the FPL and the external support combined with the reduced stipend does not raise the faculty member's compensation above the level of their base salary. Such compensation must be described in the proposal.

2.3 Required Approvals

Department Chairperson (if applicable), College Dean, University Faculty Senate Research and Scholarly Affairs Committee, Provost, and President

- 2.3.1 The Department Chairperson and College Dean will review the proposal and each include a statement of support or opposition (including reasons for such) on the application form but will not prevent the application from going forward. The Department Chairperson and College Dean will describe what actions will be needed to staff the courses that would otherwise be taught by the faculty member seeking FPL.

2.4 Application deadlines

- 2.4.1 The applicant shall deliver the packet of processed materials to University Faculty Senate Research and Scholarly Affairs Committee Chairperson by October 15, during the fall semester prior to the academic year of the proposed professional leave.
- 2.4.2 A spring submission date of March 15 follows the same requirements as the fall submission date. Spring applications for professional leave will not be considered for the following academic year but rather for ones thereafter.
- 2.4.3 The listed submission dates apply for either a one-semester or two-semester professional leave. If the submission dates fall on a weekend or holiday the suggested dates will be changed to the following work day.

3.0 CRITERIA FOR SELECTION

- 3.1 Evaluators will place greatest weight on the merits of the proposal with regards to the professional development of the faculty member and the advancement of the mission of the University.
- 3.2 Consideration will be given to the ability of the academic unit to arrange for alternate course staffing during the period of professional leave.
- 3.3 Consideration will be given to the total funds available for professional leave in a given year.

4.0 TERMS OF PROFESSIONAL LEAVE

- 4.1 Tenured or continuing contract faculty members with at least seven (7) years of employment at Shawnee State University are eligible to request FPL following the guidelines as established by the University Faculty Senate in consultation with the Provost and in accordance with the Policy 2.04 and requirements of Ohio Revised Code Section 3345.28.
- 4.2 FPL may take the form of:
 - 4.2.1 One semester at 100% of base salary and full benefits.
 - 4.2.2 One academic year (two semesters) at 66% of base salary and full benefits.
- 4.3. Within 60 days of the completion of the FPL, recipients will submit a written report of the goals and accomplishments while on FPL to the President and Provost that conforms to requirements of O.R.C. 3345.28 and agree to remain employed at the University for one (1) additional academic year. If the faculty member does not fulfill this requirement, s/he shall be required to refund the salary plus benefits received during the FPL.
 - 4.3.1 The faculty member must submit a report to the President and Provost demonstrating attainment of goals that were established in the application/proposal. The report will include a description of the research, scholarship, or creative activity and a detailed accounting of accomplishments. The report may include attachments that verify accomplishments (e.g. manuscripts, presentations, performances) completed during the professional leave. It is also encouraged that the faculty member present findings and/or progress of the professional leave to the Shawnee State University community via the Faculty Festival of Achievement or other similar scheduled events.

- 4.4 Upon return to service, the faculty member shall be restored to his/her former teaching position and shall suffer no loss of rank or contract status.

RESOLUTION ASA08-17

WHEREAS, the Governor's Task Force on Affordability and Efficiency recommends that institutions should consider consolidating programs that are duplicated at other colleges and universities in their geographic area; and

WHEREAS, the Ohio Department of Higher Education has identified duplicative programs within each region of the state; and

WHEREAS, the Chancellor of the Ohio Department of Higher Education has requested that the boards of trustees of each state institutions conduct a study on duplicative programs; and

WHEREAS, a report resulting from this study has been completed including a list of duplicative programs, actions to be taken, and rationale; and

WHEREAS, the Provost and President have recommended this report for Board of Trustees approval;

THEREFORE, BE IT RESOLVED, that the Board of Trustees of Shawnee State University hereby approves the attached Report on Duplicative Academic Programs.

(June 9, 2017)

Duplicative Program Report

Submitted to the Ohio Department of Higher Education, April 2017

Narrative summarizing the identification of duplicate programs targeted for action.

Shawnee State University (SSU) is the most geographically isolated state university in Ohio. Ohio University, the closest main campus, is over 75 miles away. The nearest branch campus, Ohio University Southern, is approximately 30 miles away and the nearest Ohio community college, Rio Grande Community College, is nearly 50 miles from SSU.

SSU is a regional institution and attracts a majority of its students from a four-county region in south-central Ohio. Most SSU students are first generation college students with low or no EFC. Many require developmental education for college readiness. A majority of students who attend SSU are unlikely to attend the closest main campus, Ohio University, because of travel, cost, and/or admission standards.

SSU's Office of the Provost has reviewed the spreadsheet of Duplicative Academic Programs (Southeast Region) supplied by the Ohio Department of Higher Education (ODHE). Numbers of graduates, majors, cost, and other metrics were considered in this review. In part, SSU also used thresholds - 10 majors for associate and 20 majors for baccalaureate programs - that were reported to ODHE in January 2016 for low-performance program standards.

SSU initiated a comprehensive program review process prior to the current academic year. All academic programs including duplicative programs were evaluated based on enrollment data and low-performance thresholds. Seven academic programs (two duplicative programs listed herein) were identified for elimination. Others will be subject to further review.

This report has not been reviewed by the Shawnee State University Board of Trustees (BOT) but will be reviewed at its June 9 meeting. The BOT-approved report will be forwarded to ODHE with changes, if any, following the June meeting. Any questions concerning this report may be referred to:

Board Retreat	
Saturday, June 09, 2018	Time and location to be determined

Marc Scott, PhD
Faculty Senate President
University Faculty Senate
Shawnee State University

Prepared Remarks for June 9th Board of Trustees Meeting

I'd like to thank the Board for inviting me here today. I have much to learn and attending this morning's committee meetings and joining you this afternoon has been instructive. I'll make my remarks brief this afternoon.

I would first like to introduce myself. I'm Marc Scott, the newly elected Faculty Senate President. I am a faculty member in the English and Humanities Department and next year will begin my sixth year at Shawnee State University. I also direct the Summer Bridge to Success Program.

At this point, there are only a handful of issues I've identified requiring the senate's attention. Of course, we will play a significant role in the revised shared governance structure, continue to make refinements to the curriculum system, and streamline our processes so information flows more seamlessly through the various committees and out to the faculty. I would also like to hear more from the faculty and encourage more sharing of the good work we do outside of our departments.

In addition, we will review College Credit Plus policies and procedures to make sure SSU adheres to the letter and spirit of the law. The dual enrollment policies have largely remained unchanged since the adoption of CCP, and we want to ensure that a student taking English 1101 at an area high school has roughly the same experience of a student taking my English 1101 class this fall. The law was passed to provide students with a collegiate experience whether they take a class here or at their high schools, and we'll review our policies to make sure that is indeed the case.

Finally, in the coming months, I will be listening to my colleagues in the University College, the College of Arts and Sciences, and the College of Professional Studies. In the conversations I've had since being elected, I can tell you that each and every faculty member I've spoken to has expressed a desire to help Shawnee State University confront its challenges in the years ahead. I feel privileged to represent a faculty that wishes to be active participants in the important discussions we have in the upcoming years, and I'm looking forward to working with our friends in administration to address our obstacles, challenges, and opportunities. Thank you.
