Return on Investment: To have, over-time, return net-of-fees that at least equals common indexes in capital markets in which the University's assets are invested.

7.0 INVESTMENT ALLOCATION:

Liquid pool and diversified investment pool are established.

The liquid pool investments can only be made in money market funds, the treasurer of the state's pooled investment program (STAR Ohio), securities, including discount notes of the United States Government or of its agencies or of its instrumentalities. A minimum of 25% of the prior fiscal year's average investment portfolio will be housed in the liquid investment pool. The actual percentage may be higher than this figure dependent upon anticipated cash flow needs with some buffer for unanticipated needs as determined by the Shawnee State University Business Office. The administration of this pool is to remain with the Shawnee State University Business Office as an agent of the Investment Committee. Returns will be reported quarterly to the Investment Committee, in-turn to the Board of Trustees.

The diversified investment pool will be invested in publicly traded securities with the following ranges of asset allocation within that pool:

		Range
Equities	50% +/- 10%	40% to 60%
Fixed Income/Bonds	50% +/- 10%	40% to 60%
Total*	100%	

*Including as a percentage of the total portfolio up to:

- 15% International Securities
- 15% Alternative Investments

Two investment managers will manage the diversified investment pool's assets, investing in pooled mutual funds only (except for alternative investments).

The Vice President for Finance and Administration or delegate has authority to allocate funds between these pools.

8.0 FURTHER DIVERSIFICATION AND INVESTMENT QUALITY, DIVERSIFIED INVESTMENT POOL

No more than 5% of each investment manager's portfolio can be invested in any single issue except U. S. government securities.

Investment in fixed income securities shall be limited to government and agency issues and other issues in the top four quality ratings of recognized credit services. Other than for alternative investments (see 9.0 below), prohibited investments include bonds rated below investment grade and derivatives which comprise a substantial part of an investment fund. Again, other than for alternative investments, investments are prohibited in: the purchase or sale of futures or options for speculation or leverage, purchase or sale of commodities, commodity contracts, or illiquid interest in real estate or mortgages.

9.0 ALTERNATIVE INVESTMENTS

Inclusion of alternative investments has the effect of improving the return versus risk outlook of the portfolio, over time. Alternative investment categories include: Hedge Funds, Private Equity/Venture Capital, Real Estate, Commodities and High Yield Bonds. Certain alternative investments invest in assets with limited liquidity and may also use derivatives such as futures and/or options to achieve their objectives. Accordingly, some of these alternative investment vehicles themselves may have limited liquidity. Additionally, some alternative investment vehicles may invest in fixed income investments with below investment grade (not in the top four quality ratings of recognized credit services) bond ratings.

10.0 MARKET BENCHMARKS

Given short-term market fluctuations, it is intended investment manager(s) will achieve the following performance objectives over a 5-year moving period, net of investment fees. It is understood that performance evaluation will occur in shorter intervals, the results of which may cause the Investment Committee to make an investment manager change.

Liquid pool, return will exceed the 3-month U.S. Treasury bills return.

Diversified investment pool, return will exceed a balanced index composed of: 30% S&P 500 Index, 6% S&P Mid Cap 400 Index, 4% S&P Small Cap 600 Index , 10% EAFE Index, 50% Lehman Brothers Aggregate Bond Index.
