

Welcome to **Shawnee Computer Scholars 2008**, a summer program offered by the Department of Business Administration and University Outreach Services at Shawnee State University in Portsmouth, Ohio. Our goal is to provide a unique and exciting learning experience on campus designed just with you in mind. If **you are currently in grade 6, 7, or 8**; you will learn new and valuable information and gain new computer skills designed to help you develop your interests and give you an academic head start in school. All classes meet in the beautiful, high tech **Kricker Hall** computer labs on the Shawnee State University campus. Courses are one session or more and offered either morning (9:00 a.m.– 12:00) or afternoon (12:30 – 3:30 p.m.). So, register for more than one course and stay all day. You may bring your own brown bag lunch, or check the lunch box on your registration form and a delicious lunch will be prepared for you.

Course Descriptions

Website Building

Instructor: Janice Johnson

Monday June 16 – Thursday June 19, 2008 9:00 a.m. – 12:00

Learn how to build web pages using HTML (and without having to buy expensive software). Find out how to pick a web host, obtain a domain name (for less than \$5 a year), get your site listed on the search indexes and other information and tips for webmasters. While you'll learn how to build pages using software already available on almost every computer system, you will also gain hands-on experience with software tools such as Adobe Dreamweaver and Microsoft Expression Web. Beginner level class, but helpful information for experienced web programmers, too. Course fee: \$70.00 Location: Kricker Hall, 251

What's in the Magic Box?

Instructor: Dovel Myers

Monday June 16 – Thursday June 19, 2008 12:30 – 3:30 p.m.

Hands-on exploration of computer hardware, software, and peripherals. Take a computer apart and see what's really inside. Learn what makes it work, how to choose between different computers and features, what components look like and do. (We provide the computers and all necessary tools.)

Course fee: \$70.00 Location: Kricker Hall, 254

Programming a Computer

Instructor: Jim Reneau

Monday June 16 – Friday June 20, 2008 12:30 – 3:30 p.m.

In this class we will introduce basic concepts of computer programming. From the first hour of the class you will be developing programs to tell the computer exactly what to do. Concepts include: variable, loops, decisions, basic operations, drawing, and sprite graphics. We will be using a simplified programming environment named Phrogram that allows even novice programmers to create complex graphics and games.

Course fee: \$70.00

Perfectly Legal Downloads

Instructor: Mel Goetting

Friday June 20, 2008 12:30- 3:30

Learn where and how to legally and easily download software, games, images, and other interesting things from online. Discover fun (and free) resources available in just a click.

Course fee: \$ 25.00
