

## Broadening Horizons Topic Model

### TOPIC MODELS: Year 1 and Year 2

#### Sensory and Dual Sensory Impairments Course Development Grant Topic Model-Year 1

## Sensory and Dual Sensory Impairments Course Development Grant Topic Model-Year 2\*

\*NOTE: The process of gaining approval at the State level for the sensory impairment endorsement is purposely not included. This is because at the time of the grant development, the endorsement had not yet been approved. Therefore the exact steps needed for gaining approval were not known by the writers. The intent and overall goal of the writers is to lead the development of the Broadening Horizons program in a manner to insure it is completed and ready to launch for instruction of candidates and to also submit the entire program for endorsement approval to the appropriate State agencies as soon as the program is ready and the endorsement submission procedure is in place.
