It seems to be in the news every time you open the paper: benefits that American workers were hoping would accompany them into retirement are falling by the wayside, victims of inflation and cost-saving measures that seem universal.

Enter Whole Life, from Kanawha Insurance Company, a Manhattan Life Company. Whole Life is a simple, “voluntary”, whole life insurance policy you can get at a reasonable cost during your working years, when you and your family need coverage most. But unlike term insurance, it’s also a benefit that is going to stay in place once retirement rolls around - no small consideration in today’s economy.

In short, Whole Life has two great things going for it: it’s on-the-job today and it will still be there for you, tomorrow.

The premium you pay buys a life insurance policy with guaranteed coverage and actual cash value. Coverage is guaranteed to stay level (based on when you sign up) and cash values stay with the policy for its lifetime, allowing loans to be taken or used to buy paid-up coverage.

WHOLE LIFE PROVIDES THE FOLLOWING BASE BENEFITS:

- Guaranteed death benefit
- Guaranteed cash value
- Paid-up coverage at specified age
- Terminal Illness Benefit provides a lump sum equal to 50% of face amount upon diagnosis of a terminal illness
- Completely portable - you can take it with you even if you change employers
- Loans available

YOUR FAMILY NEEDS PROTECTION TODAY AND TOMORROW. When you’re working for years to come, Whole Life can be there, to protect everything that’s most important to you, right up to retirement and well beyond. It’s yours to keep.
As health care costs continue to rise, the value of increasing your supplemental insurance coverage becomes more important. **Accident** helps address your concerns by offering supplemental coverage for accidents, injuries, ambulance services, accidental death and dismemberment.
