

Description Please complete this short form, to be used only for the purposes of our class, to help me understand what your expectations, needs, and preferences would be regarding online instruction as Shawnee moves our classes online.

Instructions The university has requested that faculty prepare themselves to teach using online tools and strategies. I believe, this also requires understanding YOU and how your lives may change as face to face interaction is limited. I want to help you understand the material in ways that are engaging and appropriate. Teaching online poses many challenges, and I want to make sure that we are all investing time to create an experience that is as likely as possible to provide an informative and enjoyable experience.

I understand that your lives are changing in substantive ways as the university closes. Your personal health, family/caretaking obligations, travel and commuting time, work, and financial situation might be significantly affected. You might also be staying in a location with different technology infrastructure and access than is typical. Please consider how you might be affected by working from a "home" or other alternative location and share those insights with me below to the best of your preference and ability.
